Interactive Benchmarks for GP Patient Survey overall-good %

Current benchmark metric: GP Patient Survey overall-good %. The first card follows the most recently clicked practice on the map. Each selected management company gets its own card below. Nearby means other practices within 2.5 miles. Company headline better/worse counts are compared with other management companies, not individual practices.

New Bank Health

Focused practice · M12 4JE · code Y02960

New Bank Health is 8% below than the nearby typical score and 9% below than the rest-of-dataset typical score on the current benchmark metric, gp survey overall good %. It ranks around the 19th percentile against the rest of the dataset. It is doing better than **51** practices and worse than **249** practices.

GP SURVEY OVERALL GOOD %	69% New Bank Health · 1 usable value	77% Nearby typical · 44 peers	78% Rest of dataset typical · 306 peers	Against nearby: 8% below. Against the rest: 9% below.
SURVEY COMPLETION	10% New Bank Health	15% Nearby typical · 44 peers	23% Rest of dataset typical · 306 peers	Return rate ranks around the 5th percentile across the dataset.

GTD Healthcare

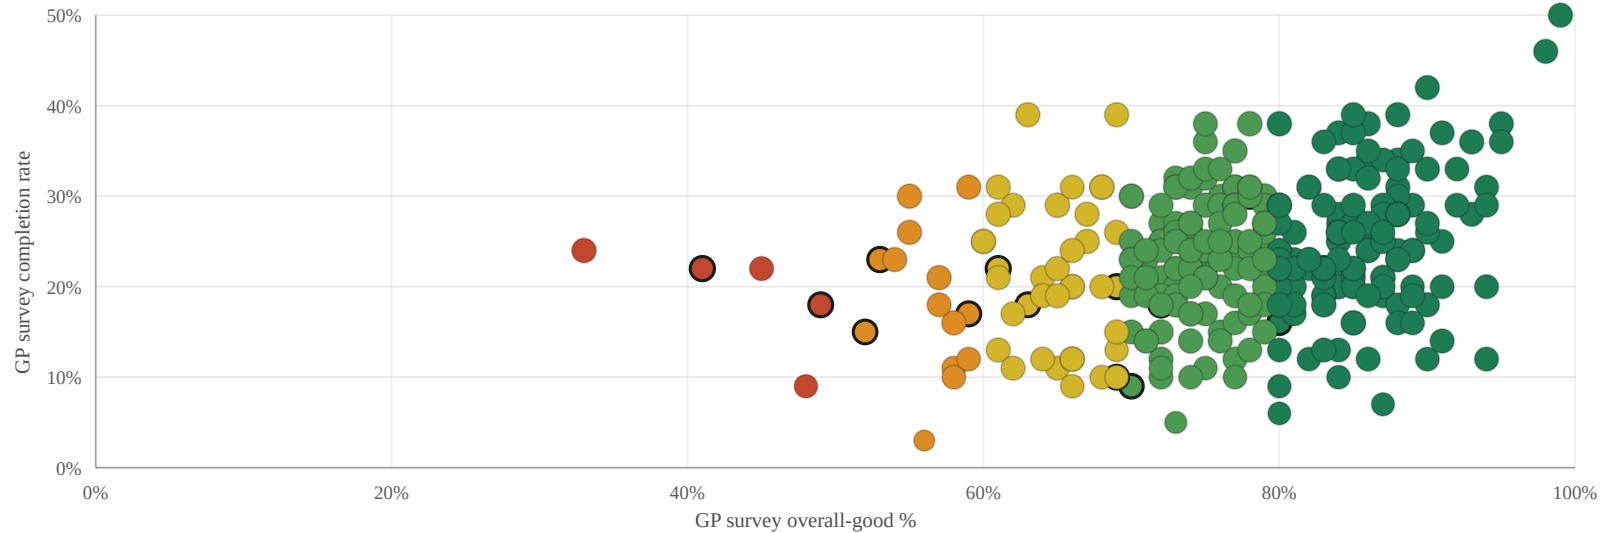

14 practices in the current dataset

GTD Healthcare average is 13% below than the nearby typical score and 14% below than the rest-of-dataset typical score on the current benchmark metric, gp survey overall good %. It ranks around the 0th percentile against other management companies in this dataset. It is doing better than **0** management companies and worse than **12** management companies.

GP SURVEY OVERALL GOOD %	64% GTD Healthcare mean · 14 practices with data	77% Nearby non-company typical · 137 peers	78% Rest of dataset typical · 293 peers	Against nearby non-company practices: 13% below. Against the rest: 14% below.
SURVEY COMPLETION	19% GTD Healthcare mean · 14 practices with data	20% Nearby non-company typical · 137 peers	24% Rest of dataset typical · 293 peers	Return rate ranks around the 24th percentile across the dataset.

Completion Rate vs Score

307 practices have both GP survey completion data and a usable gp survey overall good % value. Median completion is 23%. Pearson r is 0.29. New Bank Health is at 10% completion and sits around the 5th percentile for completion in this set.

Y-axis is GP Patient Survey completion rate. X-axis changes with the selected score source.
