## Everything you need to know about contacting us online!

### What can I use the online request form for?

We use an online system called Patches Health to manage all patient requests such as:

- medical advice about symptoms or health concerns;
- an appointment;
- a medication review;
- fit (sick) notes;
- administrative help (for example, letters, forms, test results and referrals).

### Why do I need to complete the online request form?

Completing the online request form helps us understand your needs more clearly. The more information you can share, the better we can assess how best to help you.

Please include details about your symptoms, relevant medical history, and any concerns. This helps our clinical team to decide on the most appropriate care for you.

### What happens when I submit a form?

- All requests are reviewed by a GP, who will decide on the best way to support you.
- You will be contacted within two working days with the next steps.

### What if I cannot use the online system?

All requests, whether you contact us online, by phone or in person at the practice, are processed through our online request system.

You are welcome to complete the online request form yourself. If you would rather phone us or visit the practice, a member of our reception team will complete the form on your behalf.

All requests go through the same review and clinical process, regardless of how they are submitted.

## You can register for the online system for quicker access

Registering gives you a quicker and more convenient way to contact the practice. However, you don't have to register if you would prefer not to.

To create an account:

- Scan the QR code or visit <https://patches.ai/newbankmedicalpractice/login>.
- Select one of the following options:
  - **Create an account as a patient** to register yourself.
  - **Create an account as a carer** if you are completing requests on behalf of someone registered at the practice.
  - **Continue without creating an account.**

## Submitting a request for your child

Select **Someone I care for** to start the request.

The first time you do this, you will need to add your child's details. Please submit the request under your child's details to ensure it is added to the correct medical record.

### How can we help you?

We respond as soon as possible during our opening hours: **Monday-Friday 8AM-6.30PM.**

If you need help outside these hours please call 111 or go to <https://111.nhs.uk>.

**Do not use Patches for medical emergencies - [What is an emergency?](#)**

**For medical emergencies please call 999 or go to your [local A&E](#) immediately.**

## Translation services available

Translation options are available to support patients who prefer to use another language.

Simply choose your preferred language from the drop-down menu at the top of the page before starting your request.

This helps make sure language is not a barrier to accessing care.
